

Proactive Cybersecurity Fully Managed

Business Cybersecurity Covered.

Strengthen Your Business with Robust Cybersecurity Protection. Unlock new opportunities with proactive, fully managed cybersecurity that aligns with your business goals. Custos IQ's offensive approach doesn't just defend—it anticipates and neutralizes threats, helping you stay a step ahead.

With our solutions, you can reduce costly downtime, protect your reputation, and streamline compliance processes, while also lowering insurance costs, enhancing third-party risk management, and reducing in-house security staffing expenses. Custos IQ is here to secure your operations and empower your success, allowing your team to focus confidently on growth in an ever-evolving threat landscape.

Why Managed Offensive Security?

Validation of Defense Controls

63%

of organizations are, at best, moderately confident in their ability to detect and block ransomware attacks*

Protected Communication Channel

91%

of all attacks begin with a phishing email*

Improved Executive Communication

58%

breach costs reduction was experienced by organizations that tested incident response plans regularly*

1. Ransomware Report, Cybersecurity Insiders, 2022. 2. Global Digital Trust Insights, PWC, 2023 3. Cost of a Data Breach Report, IBM 2022

Why Choose Us?

20+ Years Experience

Trusted cybersecurity expertise for reliable solutions.

Industry Expert

We are dedicated to delivering market-leading services.

Reduced Stress

We handle the burden of protecting your data from external threats.

Strong ROI

Reduce risks, maintain compliance, optimize insurance costs.

Separating Custos IQ from the Competition

Experience the Difference

	Risk Assessment	Proactive Defense	Risk Mitigation	Incident Response
CUSTOS IQ	Proactive vulnerability identification through business analysis, expert insights, and tailored security recommendations.	Continuous attack surface testing, threat discovery, and market leading solutions.	Robust Security Controls, Attack Simulations, Compliance, & Continuous Threat Monitoring	Business Continuity, Minimizing Downtime, Rapid Response, and Quick Recovery
Other Solutions	Reactive, lack real-world testing, generic recommendations, limited understanding of actual vulnerabilities.	Limited resources, lack specialized expertise, & no offensive attacks simulations.	Generic Solutions, Outdated Security Protocols, Lack SOC Capabilities.	No Incident Response Plan, Inadequate Containment Strategy, & Lacking Forensics.

Integrate

We Unify Market
Leading Tools and Vendors.

Automate

Streamline Security Operations and
Workflows with Cutting Edge AI-
Security.

Scale

Scale with future-proof
solutions that will adapt and
align with future need.

About Custos IQ

With over 20 years of expertise, we empower organizations to navigate complex cybersecurity challenges, delivering measurable ROI and fortified protection.

Our elite team of industry experts specializes in proactive, offensive strategies that safeguard your assets and maintain your competitive edge. Leveraging the latest technology, intelligence, and a strategic, collaborative approach, we're here to help you stay secure, resilient, and ready for whatever comes next.
